- ❖ A great appeal for all ages, something thought provoking for everyone.
- ❖ Heart to Heart - its great to have the opportunity to see it from God's side.
- ❖ I knew I was supposed to become “as a little child” and I have worked at it for years but “ Heart to Heart” is like a degree course in Godly childlikeness all in one weekend.
- ❖ How wonderful to be asked to be childlike. It does no harm to learn as children again – and the children can teach us so much!
- ❖ Thank you so much for the care and attention to detail that you have planned for us. Heart to Heart has reached a part of my heart that other weekends haven't done. The 5 stations in the church was a most inspiring and moving experience and I felt very close to Jesus.
- ❖ In front of the white station, feeling open to God lighting the candle, seeing the wax spill over, run down, reminding me that God's mercy and grace flows like rivers.
- ❖ The reflection in the Church was very special and moving, and helped to bring issues that need dealing with in the fore front. With God's help these things can all be resolved.
- ❖ During the reflection time in the Church I felt unable to put on the crown, but after some quiet time I was able. I feel God helped me to know that His love is for me and I am worthy of his love.
- ❖ It was a marvelous weekend. Thank you so much for leading us in such an inspirational way. As we have continued talking about it, the Saturday reflection in church seems to have been a very powerful experience for many; it spoke to them in a way words could not. Without exception, everyone seems to have gained something from this time away- from the youngest to the oldest! It was truly all age.
- ❖ You gave us a wonderful gift in “Heart to Heart” apart from being creatively conceived and meticulously prepared it was a joyful, restful(yes restful!) and truly anointed time. Oh how we needed it.
- ❖ The all age sessions were great – really incorporating everyone, with some simple but effective prayer techniques. The reflection time on Saturday evening was a real blessing to both of us. I found the different stations really helpful- especially the use of water, helped me to focus more clearly.
- ❖ I had never worked with an all age group like that and it was great. Heart to heart reached part of my heart that other weekends don't. The reflections in the church were inspirational and very moving.
